Risk Records went under shortly after release and Press On has been out of print ever since. Dualtone is proud to make available again this Grammy Award winning masterpiece in anticipation of a new album from June due out on Dualtone this Fall. Pres On features guest performances from Johnny Cash, Marty Stuart, Rodney Crowell, and Norman Blake.

• Former Kentucky Colonel, future Byrd, and a true guitar legend, the guy that defined the country-rock guitar, much revered, oft imitated but never bettered. Clarence was later famous for the Stringbender in the Byrds, but the playing here, showcased on country/folk-rock sessions from 1966 to 1968 including super-rare singles, demos and his first recordings as a soloist, demonstrates Clarence's already unique style just prior to the Bender. Note also the inclusion of an a recent, major find - previously unknown electrified demos by the Kentucky Colonels that are probably the earliest recordings extant of White playing electric guitar. This release also comes with the full blessing of the late guitarist's family, and the detailed notes include a wealth of new information upon this career. Byrdmaniax and fans of bluegrass/country guitar alike will jump for joy.
