INFORMATION

It happened by mid-1985 that Rumble On The Beach jumped on the stages of the German independent scene. Their first outstanding success was their own adaption of the Prince classic *Purple Rain* – its refrain with a Rockabilly Beat! The most popular German teen-magazine 'Bravo' supported the band as well as the whole press nationwide after their first album release in 1987. They started to tour around all years even together with the legendary Stray Cats.

This platter is a reissue of their second album, the original VIELKLANG RECORDS 12inch Mini-LP 'Rumble' from 1988, now in a 10inch format. The songs are completely remastered for your listening pleasure! What a great sound that is in combination with a high quality vinyl pressing! Some legendary self-penned compositions can be heard besides their awesome cover versions! Now get that 'High-Speed Rumble'!
