## INFO:

- After three English-language albums, Till Kersting finds his perfect home port with his own songs in German on Bear Family Records®!
- The completely and perfectly analog produced luxuriously equipped album 'Circuskind' resurrects the sound of the last great German rock 'n' rollers like Marius Müller-Westernhagen and makes Till the legitimate torchbearer of this music.
- Till rips his Fender® amp, tells stories and tortures his Telecaster until the tubes glow!
- In 20 years of consistent work as a hired gun, he lent his skills to acts like Stefanie Heinzmann, Tom Beck and rock 'n' roll grand seigneur Peter Kraus, among others.
- Till joined two bands as a permanent member: for Tommy Engel - the voice of Cologne - he is active as a guitarist and singer, with the modern rock 'n' roll triumvirate The Baseballs he tours the world.
- For years he has been the musical director for 'Pussy Terror TV' on ARD and also supports Carolin Kebekus in her new TV show 'DCKS'.
- Till Kersting is happy to do what he does best on stage with his Telecaster over his right shoulder: play guitar in the rock 'n' roll arena!
- Luxury edition pressed on high-quality 180-gram vinyl with gatefold cover, booklet and a comic as well as a signed autograph card (for Bear Family customers) - and additionally the complete album in digital form on CD.

Till Kersting is a real circus kid: as a little boy he got a taste of backstage in his uncle's beat band. After that, the 13-year-old went on tour with his parents' 'cultural circus', slept in a construction trailer, and learned the craft that would later have a lasting impact on his life. He stood on stage with his guitar, gave his all every night.

Today he pursues his own career as a hired gun and tours the world with the modern rock 'n' roll triumvirate The Baseballs.

He regularly appears as a bandleader on German national television and now devotes himself extensively to songwriting (initially in English, now exclusively in German), honing his excellent guitar technique and refining his Fender® tuning. With 'Circuskind', Bear Family Records® releases the oeuvre of a pure rock 'n' roller who has absorbed the US-American world of soul and rock like no other!
