## THE JOHNNY CASH CONNECTION

A new generation came to Johnny Cash in the 1950s, a new generation came to him in the 1960s and early 1970s, another generation rediscovered him in the late 1990s, and yet another generation found him after the bio-pic 'Walk The Line' topped box office receipts coast-to-coast and around the world.

We at Bear Family began issuing or reissuing Johnny Cash in 1978 when Cash's stock was low and no one apart from us cared, and we carried on with career-defining boxed sets in the CD era, again when no one aside from us cared. Along with our catalogue of previously issued and unissued recordings, we have unearthed a wealth of visual material for fans and collectors, along with informative and entertaining liner notes. We're especially proud that in a recent interview with 'Musik Express,' James Mangold, director of the Johnny Cash bio-pic 'Walk The Line', revealed, "*I would not have made this movie if I had not come across the Johnny Cash CD box sets released by Bear Family Records...It definitely was the pictures and the text in those Bear Family box sets that gave me the right feeling for the whole era.*"

Now we have exciting new packages for the Johnny Cash collector.

## SALES NOTES

**Johnny Cash...Johnny C....Johnny Sea.** That was the thinking when a young deep-voiced singer named Johnny Seay was renamed and encouraged to sing like a slightly older deep-voiced singer named Johnny Cash.

Johnny Sea recorded quite prolifically for ten years between 1958 and 1969, but we've focused on his studio recordings for NRC and Philips when producers Bill Lowery and Shelby Singleton encouraged him to record in the Johnny Cash style. In fact, Johnny C. was enough of a fan of Johnny Sea to offer him a song, *My Old Faded Rose*, and Johnny Sea got into the charts with Johnny C.'s adaptation of *Frankie's Man*, *Johnny* as well as a song closely associated with Waylon Jennings and Bob Luman, *My Baby Walks All Over Me*.

These recordings were no mere act of copyism. Johnny Sea put his unique spin on the Johnny Cash style, and all Cash fans will enjoy hearing this unique collection of '50s and '60s recordings.
