## SALES NOTES

For years, bluegrass and traditional music fans have been telling us that we should do something on CARL STORY. We agree, and here it is. We're starting with the sides that are the absolute hardest to find... and those who've heard them agree that they're the best!

Carl, who is known as the **Father of Bluegrass Gospel**, had the most distinctive and thrilling soaring high tenor in all bluegrass music. He started recording for Mercury in 1947, but switched to Columbia between 1953 and 1955, and it's those **hard-to-find Columbia recordings** that we've packaged complete here. Carl's group, the Rambling Mountaineers, also included vocalist and mandolinist Red Rector, who is featured here. Story's repertoire for Columbia included songs by the best songwriters of the day, including the Louvin Brothers (***Love And Wealth***) and Moon Mullican (***Lonesome Hearted Blues***) as well as soon-to-be-standards like ***My Lord Keeps A Record***. By the end of his tenure at Columbia, Carl was shading toward rockabilly with numbers like ***You've Been Tom Cattin' Around***, but it's for the hard country gospel that Carl Story will be remembered, and the very best is here. Reissued complete for the very first time on CD.
