- Music from Bielefeld for the world!
- New English language album
- Fabulous harmonies and world class vocals

INFORMATION

The Crystalairs' unique style of rock 'n' roll, country, vocal group harmony and even pop from the 1950s and '60s has blessed them with a world wide fan community and a career spanning more than 10 years. Their doo wop from Bielefeld has become a trademark that will now earn them an even bigger audience with this brand new CD.

Even in America – the home of doo wop – the Crystalairs are highly respected. And now, after recording an album in German, they have released another CD in English. It's their eighth album, and because their previous album 'Die ganze Welt' was so successful, the Crystalairs decided to make English translations of some of their songs for 'The Whole Wide World' – in addition to new titles. The group's vocal skills are brilliant, and their song writing potential reveals itself in their multilayered compositions.

The Crystalairs are known for creatively arranged material that evokes feelings without sentimentality. And their interlocking voices are true vocal perfection. They are in category of one! 'The Whole Wide World' is the latest step for an ensemble that is still looking for new lands to conquer but no longer feels the need to prove anything.
