It's time for your own house party hop with the leading combo in the USA. . . Ray Anthony! Chill the drinks, call the guests, dampen the lights, roll the rugs to the side, because there's action and great fun! The comet-like rise of Ray Anthony, 'The Young Man With A Horn,' was spectacular. Inspired by young people with fresh, new ideas and the drive of contemporary music of the 1950s - and together with one of the country's most brilliant trumpet players - Ray's Orchestra became the most popular orchestra in the United States, carrying its music out into the world. We have compiled his great music for you, with every leg twitching, a beat that automatically sets the body into dance movements, arrangements that make the heart race, with cool new ideas in the brass sections. And the solid rhythm that can also be found in rock 'n' roll! Plan your party now!
