Considering his incredible vocal talent, stardom remained surprisingly elusive for Narvel Felts for far longer than it should have; only during the '70s did his name become a household word among country music fans. Felts first emerged as a wild-and-woolly rockabilly during the '50s, laying down some amazing demos with his Rockets at Sun before moving over to Mercury for his sizzling 1957 debut release and then to other labels, always retaining his own distinctive sound. 'Narvel Felts Rocks' is the first CD compilation to span his early career, featuring his best rocking sides for Sun, Mercury, ARA, and Hi as well as five untamed live performances from 1956 with Jerry Mercer's band that predate his recording days altogether. By the time Narvel broke through to the mainstream, he'd already built quite a recorded legacy—and this disc is convincing proof!
